

OHL Servicios-Ingesan is registered at the European Commission EMAS Registry

23 / 02 / 2016. OHL Servicios-Ingesan, an OHL Group division specializing in facilities management, has been granted registration at the EMAS (Eco-Management and Audit Scheme) Registry, under number ES-MD-000326, for its commitment to environmental protection through various activities carried out at its Madrid, Barcelona, A Coruña and Seville centers in Spain.

In 2008, OHL Servicios-Ingesan implemented a certified environmental management system under international standard ISO 14001. It is now taking a further step in its commitment to clients, society and the environment and has voluntarily adhered to the European Eco-Management and Audit Scheme, achieving its registration at the EMAS Registry. This registration, which acknowledges OHL Servicios-Ingesan's environmental policy, responds to OHL Group's global commitment.

Furthermore, the Division is also certified under the highest international standards, to include ISO 9001 (quality management); ISO 14001 (environmental management); OHSAS 18001 (occupational risk prevention); ISO 50001 (energy efficiency management); and SA8000 (social responsibility).
